Bourne. *Office:* Benrinnes, Aberlour.—The company was registered December 10, 1896. In 1910-11 a scheme for the reorganisation of the capital was carried out. Under this scheme £3 per preference share and £5 per ordinary share were written off, and profits available for dividend are now to be applied—firstly, in paying 5 per cent. cumulative dividends on the preference shares, and then in paying non-cumulative dividends of 5 per cent. per annum on the ordinary shares, any surplus to be divided into two equal portions between the preference and ordinary shares. In the event of a winding-up, the preference shares are to rank first for repayment up to £10 per share, together with any arrears of dividend, the balance to go to the ordinary shares, while the dividend on the preference shares was cancelled as from July 31, 1908, to January 31, 1910, but a half-year's dividend on the reduced preference capital was made payable immediately after reorganisation. The authorised capital is now £57,500, £28,000 being in 5 per cent. cumulative preference shares of £7 (having a priority also as to capital, and further dividend rights as stated above), and £29,500 in ordinary shares of £3; all the preference capital has been subscribed and called up, and all the ordinary has been allotted, and £11,800, or £2 per share, called up.

As stated above, the preference dividend was cancelled as from July 31, 1908, to January 31, 1910, in the reconstruction scheme, but immediately on this plan being carried out, a half-yearly distribution at 5 per cent. per annum was paid on the reduced preference capital for the half-year to July 31, 1910. For 1910-11 5 per cent. was paid on the ordinary shares; for 1911-12 only the preference dividend was paid; for 1912-13 only six months' dividend on the preference shares was paid; for 1913-14 eighteen months' dividend on the preference shares was paid, thus clearing off arrears, and also a distribution of 5 per cent. on the ordinary shares; and for 1914-15 the ordinary shares again received 5 per cent. Interest on the bonds is payable January 1 and July 1, and the principal is repayable in 1932, but the company and the trustees reserve the right to redeem or purchase all or any of the bonds at 105, on any interest date, on giving not less than three months' notice, while a sinking fund of 3 per cent. per annum, commencing July 1, 1913, was to be provided, to be applied in the redemption of bonds by purchase at or below 105 per cent., or by drawings at that rate (see below). The bonds are secured by a trust deed as a specific first charge on all the real property and fixed plant of the company. The bonds are to bearer, but may be registered as to principal only, and such registered bonds may be reconverted into bearer bonds, the fee for either operation being 2s. 6d. per bond. its bonds, debentures, or other securities ranking after the first mortgage bonds, or as dividend upon its common or preferred shares, the company will pay to the trustee for the bondholders $50 for distribution as additional interest on the first mortgage bonds, except as regards such bonds which may have been issued as collateral security for loans. In October, 1912, a scheme for the reorganisation of the company was submitted to and approved by the proprietors, and has been carried out. Under this scheme the issued £10 preferred shares were written down to 10s. each, and the issued ordinary shares of £10 were written down to 6d. each; first mortgage debenture stock holders retained their security, and received a further amount of similar stock for interest to August 31, 1912, while the rate of interest was increased from 4¼ to 5 per cent., and holders of prior mortgages had the right to transfer their securities to the trustees for the first mortgage debenture stock in exchange for an equivalent amount of such stock; B debenture stock for £200,000 was written down to £120,000, income bonds being given for the balance, and also for two years' arrears of interest, while the rate of interest on the B stock was increased from 4¼ to 5 per cent.; C debentures for £51,000 remained as before, except that the date for repayment was extended; and ordinary trade creditors and unsecured depositors received income bonds to the extent of 6s. 8d. in the £. The total authorised is £120,000, and the stock ranks after the first mortgage debenture stock and the C debentures. For the period from September 1, 1912, to September 1, 1913, the B stock received interest at the rate of 3 per cent. per annum, paid December 11, 1913, while payments at the same rate appear to have been made on the B stock about April and October 1914 and 1915. Kidd. *Office:* 64, Broad Street Avenue, E.C.—The company was registered June 2, 1890, to acquire the shares of an American corporation owning five breweries and malthouses in the city of Chicago. The authorised capital is £1,250,000 in shares of £10, half in ordinary and half in 8 per cent. cumulative preference, all of which has been issued and paid up. The preference shares have priority as to capital, with further participation in surplus assets remaining after repaying the ordinary capital. There were formerly 6 per cent. first mortgage bonds, issued by the American company, but in 1903 these bonds were exchanged into bonds of a new issue, the amount issued of which was $3,166,000 ($1,961,000 now outstanding). The present bonds bear 5 per cent. interest, payable January 14 and July 14, and a sinking fund was provided of 2 per cent. per annum on the amount of bonds first issued, of which one-half was absolutely fixed, and the other half was to be met out of earnings, but was cumulative; this sinking fund was to continue until the bond issue should have been reduced to $2,000,000 (effected in 1913), and was applied to annual drawings in July, commencing in 1904. There is now

no obligatory sinking fund for the bonds which fall due at par January 14, 1933. The trust deed includes a provision that dividends shall not be declared which will reduce the floating assets below $1,300,000 (over and above all floating indebtedness), and further, that should the floating assets, by loss on trading, be reduced below $750,000, the trustees for the bondholders shall have the right of foreclosure on giving three months' notice.

In April, 1914, it was decided to reduce the capital from £1,740,570 to £1,034,771, by cancelling 1,500 ordinary shares of £5 on which £2 had been paid on each, which had "been disclaimed in bankruptcy," by writing 28s. per share off each of the remaining £5 shares with £2 paid, and by writing off paid-up capital to the extent of 70 per cent. on £840,570 of ordinary stock, while at the same time arrears of dividend on the preference stock amounting to 19 per cent. were cancelled. The Hour Glass Brewery, in Upper Thames Street, E.C., and certain adjoining property is to be realised as soon as possible, and one-half of the net proceeds of the sale is to be paid to the trustees for the 4 per cent. (first) debenture stock, to be applied so far as it will extend in redeeming stock by purchase in the open market, or by tender, or by redemption pari passu at 108, or by drawing at that rate, or partly in one way and partly in another; the remaining one-half of the net proceeds of the sale of the Hour Glass Brewery to be paid to the company, to be applied to improvements and extensions at the Swan Brewery, while any portion of the sum not so needed is to be handed over to the trustees for the first debenture stock. Interest is payable May 1 and November 1, and the principal is repayable, at the company's option (now at any time), at 108 per cent.

As stated above, the Swan Brewery, at Fulham, has been taken over on lease by the City of London Company, and it has been decided to realise the Hour Glass Brewery, in Upper Thames Street; one-half of the net proceeds of the sale of the Hour Glass Brewery is to be used in redeeming debenture stock of this issue, and the other half, or the bulk of it, in carrying out improvements and extensions at the Swan Brewery, the City of London Company's interest in which has been transferred to the trustees for this and the following debenture stocks.

£300,000 Irredeemable 3½ per cent. debenture stock (being the total authorised), of which £150,000 was issued in 1897 at 103 per cent., and the balance in October-November, 1899, at par. Interest is payable May 1 and November 1, and the principal was secured, subject to the 4 per cent. debenture stock, on specified freehold and leasehold properties (including nearly two acres of freehold land in the City of London). In the event of liquidation the principal will be repayable at the average market value, but not less than par, ruling during the preceding three years, while if the stock becomes otherwise enforceable it will be redeemable at par.

As stated above, it has been decided to realise as soon as possible the Hour Glass Brewery, in Upper Thames Street, one-half of the net proceeds to be applied in redeeming 4 per cent. debenture stock, while the company has acquired the lease of the Swan Brewery, at Fulham, and the company's interest in the Swan Brewery has been transferred to the trustees for the two debenture stocks.

In 1902 the company went into liquidation, but a scheme of arrangement was arrived at in June, 1903, and the proceedings in liquidation were stayed. In 1913 another scheme for the reorganisation and reduction of the capital was sanctioned by the debenture and share holders, and was carried into effect in 1914. Under the scheme of 1913-14 the interest on the first mortgage debentures was reduced from 6 to 4 per cent., such interest for five years from March 31, 1913, to be payable only out of profits, while arrears of interest were met by an allotment of one new preference share of 2s. for each £1 of debentures held; second mortgage debentures were converted into first mortgage debentures at the rate of 60 per cent., and in settlement of all arrears of interest there was given one new preference share of 2s. in respect of each £1 of first debentures allotted in exchange for the second debentures; of the preference capital £9 per £10 share was written off, and of the ordinary capital £9 18s. per £10 share was written off, the two classes of share capital being then consolidated into one class of ordinary shares of 2s. each. The authorised capital is now £9,200 in shares of 2s.—£5,000 in preference, and £4,200 in ordinary—and the entire capital has been allotted and paid up. The preference shares have a priority as to capital over the ordinary, and in a winding up are to take nine-tenths of the surplus assets remaining after repayment of both preference and ordinary shares; the preference shares rank before the ordinary for non-cumulative dividends of 8 per cent. per annum, and, after setting aside £500 per annum to debenture redemption fund, they are to take nine-tenths of the surplus profits, the remaining one-tenth to go to the ordinary shares. There are also—4 per cent. first mortgage debentures for £50,000; and loans for £3,893.

The accounts are made up annually to March 31, and submitted in June. Debenture interest was largely in arrear, but all such arrears were funded, as stated above, under the scheme of 1913-14. For the year to March 31, 1914, there was a profit on trading of £3,290, and after providing for London charges, depreciation, expenses in connection with the scheme of arrangement, and interest on bank loans but not on the debentures, there remained a balance of £1,299, which was written off the value of the land and buildings, and in respect of 1915 a surplus of £2,979 was similarly treated. Voting power, one vote for every ordinary share, and two votes for every preference share. Director's qualification, 100 shares of either class. Transfer form, common; fee, 2s. 6d. Telegraphic address, Dextrously, Cent, London. Telephone number, 6166 Bank.

In July, 1900, it was decided to lease the whole of the properties of the company (other than and except Soothill Brewery and adjoining property at Batley, and the Woolpacks Inn and adjoining property at Holbeck) to Ind, Coope and Co., Limited, of Burton-on-Trent, at the yearly rental of £16,800, for a term of twenty-one years from October 8, 1900, determinable at the end of the first ten years thereof at the option of the lessees, and with the right of the lessees to a renewal of the said lease for a further term of twenty-one years at the same rental, and with an option for the lessees to purchase the whole of the premises included in the lease at any time during the continuance of the first term of twenty-one years, at the price of £374,578. Early in 1909 Ind, Coope and Co., Limited, the lessees of the above properties, defaulted in payment of their interest, and a receiver and manager was appointed. This caused default in the payment of the quarter's rent due in December, 1908, to the Leeds and Batley Company, but arrangements were made with the then receiver of Ind, Coope and Co. to continue the terms of the lease of 1900 for a limited period (to June 30, 1912, since extended to June 30, 1920), at a reduced rental of £10,125 per annum, and this arrangement is being carried out. New York Breweries Company, Limited.—*Directors:* Hon. H. Hanbury-Tracy (Chairman), J. T. Agg-Gardner, M.P., Sir H. B. Praed, Bart., and N. Spens. *Secretary:* E. A. Freeman. *Office:* 1-2, Gracechurch Street, E.C.—The company was registered August 10, 1888, to take over the breweries of the H. Clausen and Son Brewing Company and Messrs. Flanagan, Nay and Co., both of New York. In 1899-1900 an entire reconstruction of the capital took place, £7 6s. 8d. being written off each ordinary share of £10, reducing the amount from £300,000 to £80,000, while the ordinary shares and pre-existing £300,000 of 8 per cent. cumulative preference shares were then amalgamated into one class of capital. In 1908 the rights of the debenture and debenture stock holders were modified in connection with a concentration of the company's brewery business in New York, and in 1909 all the company's assets, not covered by the debenture holders' mortgage, were sold to an American company (the share capital of which is held by the New York Breweries Company), which has assumed all the liabilities of the English company in respect of debenture interest and the debenture sinking fund services. The capital is now represented by £380,000 unified stock. There are also—6 per cent. first mortgage debentures of

£100 each for £303,600 (outstanding balance of £330,000) with interest payable February 15 and August 15, while, commencing with the year to August 31, 1910, £6,600 of debentures are to be annually redeemed, either by drawings at 105 per cent., or by purchase in the market at a lower price, any deficiency in the amount redeemed to be made up out of the profits of subsequent years; and £46,092 5 per cent. debenture stock (outstanding balance of £48,092, and part of £100,000 authorised), with interest payable February 15 and August 15, while, commencing with the year to August 31, 1910, £1,000 of the debenture stock (subject to the service of the debentures being met) is to be annually redeemed, either by drawings at par, or by purchase in the market below par, any deficiency in the amount redeemed to be made up out of the profits of subsequent years. The sum of £8,000 is to be annually set aside out of the profits available for distribution until a total of £100,000 is reached (which is to be applied in the purchase of real estate to be vested in the trustee for the debenture holders as further security therefor, the company reserving the right to mortgage such real estate in priority to the debentures to the extent of one-half its value), and after payment of 3 per cent. on the unified stock the directors are to devote one-half of the surplus profits remaining to the further redemption of the debentures. (To August, 31, 1914, no appropriation had been made in respect of this sum of £8,000 per annum.) It has been decided to dispose of the Clausen Brewery, and meanwhile a loan of £40,000 has been raised on the security of this property, and applied in the requisite alterations to the Flanagan Brewery, where the business is now concentrated.

The accounts are made up annually to August 31, and submitted in December. In respect of 1911-12 the American Company provided the English Company with the amount required for debenture interest, but not the sinking fund, although it paid a dividend of $15,000 to the English Company; for 1912-13 the American Company provided debenture interest and a sum nearly sufficient for the sinking fund for the two years (which has been partly applied, leaving the amount of the debenture issues as stated above), and again paid a dividend of $15,000 to the English Company; and for 1913-14 the American Company provided for the service of the debenture stock, and paid a dividend of $15,000 to the English Company. The dividend received by the English Company from the American Company in respect of 1911-12, together with sundry small receipts, was sufficient to cover administration charges, &c., and leave a surplus of £220; for 1912-13 the corresponding surplus was £372; and for 1913-14, £286, the English Company then having a total credit to profit and loss of £13,109. The English Company has paid no dividend on the unified stock since in respect of 1909-10. Reserve account of the English Company, £24,680. Voting power, one vote for every £1 of unified stock. Director's qualification, £500 of unified stock. Transfer form, common; fee, 2s. 6d. Unified stock is transferable in multiples of 6s. 8d., and debenture stock in any amount. Nottingham Brewery, Limited.—*Directors:* F. W. Colley (Chairman), E. Kidd, J. W. McCraith and T. E. Neal. *Secretary:* A. R. Gardner. *Office:* Mansfield Road, Nottingham.—The company was registered February 28, 1887, to acquire the brewery of Mr. E. W. Field. The authorised capital is now £204,000 in shares of £1, £136,000 being in preference shares, £34,000 in preferred ordinary, and £34,000 in deferred ordinary, the last two classes having been created in 1899 by the conversion thereinto of 68,000 ordinary shares. The preference shares were entitled to 10 per cent. cumulative dividends, with priority as to capital, but it was decided in June, 1893, that until the reserve fund should amount to £50,000 the dividend on the preference shares should be reduced to 6 per cent., and that out of any surplus profits, after payment of such dividend, an amount equal to 1 per cent. on the preference shares and 1 per cent. on the ordinary (now preferred ordinary and deferred ordinary) should be placed to reserve; the preferred ordinary shares ranked next for non-cumulative dividends of 7 per cent., all surplus profits to go to the deferred shareholders. In 1910, however, the rights of the shareholders were modified as stated below, the preference shares now ranking for 4½ per cent. cumulative dividends, the preferred ordinary for 3 per cent. non-cumulative dividends, and the deferred ordinary for 2 per cent. non-cumulative dividends. All the shares have been issued and paid up. There are also—5 (now 4½—see below) per cent. first mortgage debenture stock for £120,675 (outstanding balance of £136,000, issued at par), with interest payable February 1 and August 1, and redeemable (now) at the option of the company, at 110 per cent.; 5 (now 4½—see below) per cent. B mortgage debenture stock for £115,929 (outstanding balance of £131,296, and part of an authorised total of £164,000), issued in July, 1897, at 110 per cent., secured by a first mortgage on certain properties, and also by a second mortgage on the properties on which the £123,030 debenture stock ranks first, with interest payable January 1 and July 1, and redeemable (now) at the company's option, on six months' notice at 115 per cent.; and mortgages for £10,350. The reduction in the rate of interest on the A and B debenture stocks from 5 to 4½ per cent. (as notified above) was under a scheme agreed to early in 1910. In consideration of the reduction in the rate of interest the company undertook to establish two sinking funds for the redemption of the A and B debenture stocks, and into such funds, until the total nominal amount of the A and B debenture stocks is reduced to £160,000, there is to be paid a sum equal to ½ per cent. on the nominal amount of each debenture stock outstanding at the end of each financial year. Moreover, so long as the amount of the A and B debenture stocks outstanding exceeds £160,000 surplus profits, after providing for the payments into the redemption funds, as above mentioned, are to be applied—firstly, in paying into the redemption funds a sum equal to 1½ per cent. on the preference capital paid up (any deficiency in any one year to be made up out of the profits of subsequent years); secondly, in paying to the preference shares a cumulative dividend at the rate of 4½ per cent. per annum; thirdly, in paying to the preferred ordinary shares a non-cumulative dividend at the rate of 3 per cent. per annum; and fourthly, in paying to the ordinary shares a non-cumulative dividend at the rate of 2 per cent. per annum, while any surplus then remaining is to be divided into three equal parts—one part to be carried to the accounts of the company, and two parts to the redemption funds, as above. All sums to be paid into the redemption funds are to be in the proportion of three-fifths into the A redemption fund, and two-fifths into the B redemption fund. When and so often as the moneys to the credit of each redemption fund amount to £200 the trustees are to apply the same in the redemption of the A and B stocks, as the case may be, by purchase at or below par; but if the stock cannot be purchased, and the sum of £500 has been accumulated in the redemption fund in question, the amount is to be applied to drawings, at par. As soon as the total nominal amount of the A and B stocks outstanding shall have been reduced to £160,000 all the provisions under the reconstruction scheme of 1910 are to cease, and all the proprietors are to revert to their original rights and privileges.

The accounts are made up annually to December 31, and submitted in March. In 1910 the rights of the shareholders were modified as stated above, and for that year and for 1911 the preference shares received their 4½ per cent., but there was no distribution on the preferred ordinary; for 1912, 1913 and 1914 the preference shares got their full rate of 4½ per cent. per annum, the preferred ordinary received 3 per cent. per annum, and the deferred ordinary 2 per cent. per annum. Reserve funds, £56,063; carried forward, £1,984. The preference dividend is usually paid in March and September—paid in September, 1915. Voting power, one vote for every share of any class. Director's qualification, £500 in stock or shares of any class. The debenture stock carries 4 per cent. interest, payable March 1 and September 1, and is perpetual, being secured by a first mortgage on the entire property. Second mortgage 4½ per cent. debentures amounting to £20,000 have been deposited with the bankers, against which the company is entitled to draw to the extent of £10,000—nothing so far obtained.

forward, £539. The preference dividend was paid for the half-year to March 31, 1914 (in June, 1914), but owing to the war, there has since been no distribution on either class of shares, but it is believed that bond interest is being regularly met, and for the same reason it has been quite impossible to make up or publish the accounts for the year to September 30, 1914; this notice, however, has been officially passed as correct. Transfer form, common; fee, 2s. 6d. per deed. Some of the shares are registered and some are to bearer, and shares of one class may be exchanged into the other; in exchanging registered shares into share warrants, a fee of 1s. per warrant of 1, 5, 10 or 25 shares has to be paid, together with the stamp duty of 1½ per cent., and in exchanging share warrants into registered shares the only expense is a fee of 6d. per certificate. Samuel Allsopp and Sons, Limited.—*Directors:* Sir W. B. Peat (Chairman), J. J. Calder (Managing Director), J. Davenport, P. Gates, J. F. Remnant, M.P., and H. W. Walmisley. *Secretary:* J. Hartshorn. *Office:* Burton-on-Trent.—The company was registered February 2, 1887, to take over the business of brewers of the firm of the same name. In 1903 the capital was reduced and reorganised, and in 1908 further changes were made in the capital account. In 1911 interest on the debenture capital fell into arrear, and receivers and managers were appointed, and in 1912 a scheme of reorganisation and reduction of the capital was brought forward, which was approved by the court in June, 1913, and was carried into effect in 1913, the capital being now as under:—

£500,000 Five per cent. prior lien debenture stock, part of a total authorised of £700,000, issued in February, 1914, at 95 per cent. The stock is secured by a first and paramount charge on freehold, copyhold and leasehold properties, subject to prior encumbrances in respect of then existing mortgages amounting to £148,828. Interest is payable June 30 and December 31, and the principal is repayable by a cumulative sinking fund of 1 per cent. per annum, commencing in 1916, to be applied by purchases under par, or by drawings at par, while in the event of the company going into liquidation the stock is redeemable at par. Interest is being paid.

£1,199,000 Four and-a-half per cent. first mortgage debenture stock, part of a total authorised of £1,200,000. Of this amount £1,100,000 represents the principal sum of the old 4½ per cent. debenture stock issued on the formation of the company at par, with £99,000 added under the reconstruction scheme of 1912-13 in respect of two years' interest in arrear to the end of 1912. Interest is payable January 1 and July 1, and the stock is repayable at the company's option, at any time, at 112½ per cent., on three months' notice, or, if required by the holders, on six months' notice, after December 31, 1950, at par. By the reconstruction scheme of 1912-13 this stock is postponed to the 5 per cent. prior lien debenture stock, and a supplemental trust deed provides that the stock shall bear interest as from January 1, 1913, but shall be non-enforceable on default for three years from that date, and thereafter shall only be enforced by the trustees and not by any individual holder, but so that the trustees shall be bound to enforce the security if required to do so by resolution carried at a meeting of the stockholders by three-fourths in value of the holders present in person or by proxy. No interest has yet been paid on this stock since the capital was reconstructed.

For particulars of the proposed alterations in the position of this stock, see Additional Notices at the end of this work.

£753,710 Five per cent. participating preference stock, part of £800,000 authorised. The stock is non-cumulative until the full dividend has been paid for two consecutive years, and thereafter is to be cumulative. In the event of liquidation the stock is to be entitled to receive £100 for every £60 of stock before any distribution is to be made on the ordinary capital, but it is to have no further participation in the surplus assets. In addition to the fixed rate of dividend of 5 per cent. the stock is to take one-half the profits of each year remaining after payment of this preferential dividend, and after setting aside such reserves as the directors shall deem advisable.

£315,625 Ordinary stock, part of £400,000 authorised. After payment of the fixed 5 per cent. dividend on the preference stock, and setting aside such reserves as the directors may deem advisable, one-half the surplus profits are to be applied in payment of a non-cumulative dividend of 4 per cent. per annum on the ordinary stock and the funded income certificates pari passu, while in the year 1919 and each subsequent year, one-fourth of the balance remaining after payment of the 4 per cent. dividend on the ordinary stock and the funded income certificates is to be set aside as a sinking fund for redemption of the funded income certificates either by drawings at par or by purchase in the market or by tender, any balance of such remaining half of the profits to be available for the payment of an additional dividend on the ordinary stock.

£24,750 Funded income certificates of 5s. each, ranking for 4 per cent. dividends out of one-half of the profits remaining after payment of the fixed 5 per cent. on the preference stock and after making provision for reserves; for particulars as to the redemption of these certificates, see notice above of the ordinary stock.

The accounts are made up annually to September 30, and submitted in December. Interest on the prior lien stock has been paid to date, but since the reconstruction of 1913 there has been no interest payment on the first mortgage debenture stock, and there has, of course, been no dividend on the preference or ordinary stock or on the funded certificates. Carried forward at September 30, 1914, £13,048. Voting power, one vote for every £10 of preference or ordinary stock. Director's qualification, £100 of preference or ordinary stock, prior lien stock or debenture stock. Transfer form, common; fee, 2s. 6d. per transfer of each description of capital. The then ordinary and preference shares were written down appreciably in 1899 and 1909, and in the latter year the two classes were consolidated, certain other liabilities of the company being also converted into shares, which subsequently became stock. After paying interest on the debenture stock 20 per cent. of the remaining profits each year were to be applied to the redemption or purchase of outstanding debenture stock (commencing with the year 1910), at or under 105 per cent., but now after meeting interest on the prior lien bonds, the debenture stock, and on any other loans outstanding, 25 per cent. of the profits for the year ending April 30, 1915, 50 per cent. of such profits for the year ending April 30, 1916, and the whole of the profits in subsequent years, are to be applied to the redemption of prior lien bonds, the remainder of the profits in 1914-15 and 1915-16 to go to the reserve, and the provision for the redemption of the 6 per cent. debenture stock is to be in abeyance until all the prior lien bonds shall have been redeemed and until all of the sum of £25,377 (mentioned below) owing by the company to the trustees has been paid off, when the proportion of profits applicable to the redemption of debenture stock is to be 30 per cent. after meeting interest charges. There is also a loan of £25,377.

Interest on the prior lien bonds is being paid, and interest on the debenture stock has been met to May 1, 1914, and on the profit-sharing income bonds to March 31, 1910. In November, 1914, it was decided to postpone the two payments of the interest on the debenture stock due on October 31, 1914, and on April 30, 1915, and in September, 1915, it was agreed to further postpone these two payments, as also the payment of interest in respect of the two years to April 30, 1917, holders receiving in lieu thereof deferred interest warrants. No distribution is to be made on the stock or income bonds until all the deferred interest warrants have been discharged. These now amount to £44,845.

In 1914-15, after providing for interest on the 6 per cent. debentures, but not on the income bonds, and nothing for debenture stock redemption, writing off £9,656 for rent losses and £3,080 being special provision for bad and doubtful debts, there was a deficiency of £33,217, increasing the debit balance brought down to £40,382. The profits of the company having severely suffered as a result of the war, a scheme for funding the interest on the junior debentures, debenture stocks and note issues was, in November, 1915, sanctioned by the respective holders of the stocks concerned. The securities affected under the scheme are the 5 per cent. If the profits are insufficient they are to be divided pari passu in proportion to the amount of certificates held, and the arrears are to be made up in subsequent years. Sinking fund obligations on 5½ and 6 per cent. debentures and 7 per cent. notes are to be suspended for a like period, and after its expiration made up out of surplus profits, subject to the repayment of the deferred interest certificates. No dividend is to be paid on the preference or ordinary shares until the deferred interest certificates are redeemed and all sinking fund obligations are fulfilled. Holland. *Head Office:* Crosswell's Brewery, Langley, near Birmingham. *Registered Office:* 157, Great Charles Sreet, Birmingham. —The company was registered March 5, 1887, as Walter Showell and Sons, Limited, to take over the business of the firm of this name, brewers, at Oldbury, and in 1894 the Brewers' Investment Corporation, Limited, was absorbed, the capital then undergoing some readjustment and the name being changed as above. In December, 1913, a working arrangement was entered into with Samuel Allsopp and Sons, Limited, and in order to extinguish a deficiency of £264,034 the capital was reduced from £610,000 to £345,000, by writing £2 10s. off each of the then £110,000 of £10 preference shares, £1 5s. off each of the then £200,000 of £5 guaranteed shares, and £6 5s. off each of the then £300,000 of £10 ordinary shares, while all arrears of dividend down to December 31, 1913, were cancelled; the shares as reduced were then consolidated into preference stock, carrying a guaranteed cumulative dividend of 2½ per cent., with rights to further participation in profits when same are above £15,000, and the capital was increased by the creation of 100,000 ordinary shares of 1s. each, these latter having been subscribed by Samuel Allsopp and Sons, Limited (who have guaranteed the payment of the preference dividend up to a total of £70,000, and have deposited that sum in the hands of trustees), or their nominees. The capital is now £350,000, £345,000 being in 2½ per cent. guaranteed cumulative preference stock, and £5,000 in ordinary shares of 1s., and the whole amount has been subscribed and called up. In the event of winding up the preference stock is entitled to £143,750 of the surplus assets, and the ordinary shares to any balance. There are also £429,900 4½ per cent. debentures of £100 each, issued late in 1894 (and since), with interest payable April 1 and October 1, and the principal repayable at the option of the company (now) on six months' notice, at 10 per cent. premium. The debentures are secured by a floating charge upon the property and assets of the company.

The accounts are made up annually to about the end of September, and submitted in November or December. No distribution was made on any of the share capital subsequent to 1903, and as a result of an investigation in 1904 a huge deficiency was disclosed, the amount of this being reduced in subsequent years by the appropriation of surplus profits, until by October, 1913, it had been brought down to £264,304, which was extinguished in the reduction of capital referred to above. After reduction the then capital was consolidated into preference stock on which 2½ per cent. dividends are guaranteed by Samuel Allsopp and Sons, who hold the entire ordinary capital; in respect of 1913-14, in order to pay the guaranteed dividend, £1,534 had to be taken from the guarantee fund, as above, the profits being short of the sum required by that amount.

Gibson and Baron H. de Pfeffel (Paris). *Secretary:* H. L. Pedro Vasena è Hijos (Pedro Vasena and Sons), of Buenos Ayres, manufacturers of brass, iron and steel castings, &c. Owing to the heavy fall in the trading profit of the year 1913-14, mainly attributable to the increased cost of materials purchased, coupled with a decrease in selling prices, and to increased expenses and bad debts, it was decided, early in 1914, to reduce the capital to £959,908, by writing 8s. off each of the 600,230 issued ordinary shares, nearly all held by Señor Vasena and his family, while Señor Vasena agreed to provide the sum (£22,063) required for the dividend on the preference shares for the year 1913-14, the amount advanced to be repayable only out of the surplus profits of future years remaining after payment in these years of the fixed preference dividend. The authorised capital is now £959,908, £500,000 being in preference shares of £1, £99,770 in ordinary shares of £1, and £360,138 in ordinary shares of 12s., with all the preference and 12s. ordinary shares subscribed and paid up. The preference shares rank first for 6 per cent. cumulative dividends, with 20 per cent. of the surplus profits available for dividend, the remaining 80 per cent. to go to the ordinary, and in the event of liquidation the preference shares have a priority as to capital and arrears of fixed dividend (if any), and to 20 per cent. of the surplus assets, after repayment of the whole of the paid-up capital, the remainder going to the ordinary. Of the preference shares 150,000 were issued in December, 1913, at par, and allottees of these received an option certificate entitling them to an allotment at par at any time up to and including July 31, 1915, of one ordinary share in respect of every three preference shares allotted. There are also six per cent. first mortgage debentures of £100 and £20 each for £315,700, balance outstanding of £350,000 (the total authorised), of which £250,000 was issued in April, 1912, and the remainder in September, 1913; interest is payable March 1 and September 1, and the principal repayable within twenty years by semi-annual drawings at par (on March 1 and September 1, commenced in September, 1912), while the principal is secured by a first mortgage to trustees upon the immovable property of the company, and by a floating charge on its undertaking and assets. Subscriptions for the preference shares and £250,000 of the debentures were received by Messrs. Emile Erlanger and Co., at par (both as regards the original issue and the shares allotted in December, 1913), and 98 per cent. respectively.

The accounts are made up annually to February 28, and submitted in July. For the period from incorporation to February 28, 1913, the profit, after meeting debenture interest, &c., and applying £9,136 (being the proportion of profits applicable to the period prior to the incorporation of the company) in the reduction of the preliminary expenses to £27,398, amounted to £75,360, out of which 9 per cent. per annum was paid on both the preference and ordinary shares, and £8,000 was transferred to the general reserve fund, leaving £4,054, of which £2,283 was carried forward to the credit of the preference shareholders, and £1,771 to the credit of the ordinary shareholders. In respect of 1913-14 there was a trading profit of £63,485, and after providing for the service of the debentures, depreciation, etc., there was a surplus of £19,776, which, with the reserve of £8,000, was applied in making provision for bad debts; the preference dividend in respect of that year was paid as stated above. Early in 1914 it was decided to reduce the capital, as above mentioned, by £240,092, and this was applied as to £100,000 in writing down stock to the then cost of materials delivered in Buenos Aires; as to £46,536 in writing off discount on debentures, preliminary expenses and the expenses of carrying out the reduction scheme; as to £40,000 in writing down goodwill; and as to £53,555 in writing off bad debts and reserving against further possible loss in this respect. For 1914-15 the full 6 per cent. on the preference shares was declared (3 per cent. of which was paid on July 31, 1915, while the balance of 3 per cent. is to be paid when convenient—not paid to November, 1915), and a sum of £27,170 remaining was placed to reserve for contingencies. Canada Iron Corporation, Limited.—Reorganised as the Canada Iron Foundries, Limited.

Canada Iron Foundries, Limited.—*Office:* Montreal, Canada.—The Canada Iron Corporation, Limited, was incorporated in 1908, under Canadian laws, to acquire the properties of five companies in Canada carrying on the businesses of iron founders and mining. In August, 1913, a receiver was appointed for that company, and subsequently a reconstruction was carried through under the title of the Canada Iron Foundries, Limited, which was incorporated in March, 1915, under Canadian laws. The authorised share capital is $4,560,000 in shares of $10 each, $2,500.000 being in 6 per cent. non-cumulative preference shares and $2,000,000 in common shares, and $2,200,000 of preference and $1,800,000 of common were issued credited as fully paid to the liquidators of the Canada Iron Corporation, Limited, for distribution among the parties interested according to the scheme of reorganisation. The company also has an authorised issue of $1,000,000 of 6 per cent. A debenture stock, and £800,000 of 6 per cent. B debenture stock; of the A debenture stock between $600,000 and $700,000 has been subscribed for in cash at the price of 95 per cent. to provide the money required for working capital, and of the B debenture stock approximately £600,000 was issued to the liquidators of the Canada Iron Corporation for distribution amongst the holder of first mortgage bonds of that corporation for £600,000, the bondholders of the old company having also received 10 per cent. on their bonds in common shares of the new company. Interest on the A debenture stock is payable half-yearly, and a sinking fund of 3 per cent. is provided, to commence in 1916, but for the three years to September 30, 1918, the interest and sinking fund are payable only if earned, any arrears to become payable on September 30, 1918, while after that date the interest and the sinking fund become a fixed charge. The interest on the B debenture stock, so long as any of the A debenture stock is outstanding, is payable only on January 1 in respect of the financial year ending on the previous September 30 if earned, and for the three years to October 1, 1918, the interest is non-cumulative, although afterwards it is cumulative; but when the A debenture stock shall all have been redeemed the interest on the B debenture stock is to become a fixed charge, payable half-yearly on January 1 and July 1, with a sinking fund for redemption of 1 per cent. No dividend is to be paid on the preference shares until the company has profits or reserve in hand sufficient to meet interest on the B debenture stock for one year ahead. The reconstruction was carried through as regards London by the Montreal Trust Company, 2, Bank Buildings, Prince's Street, E.C.

Canadian Collieries (Dunsmuir), Limited.—*Directors:* Sir W. Mackenzie (President), Col. A. D. McRae (Vice-President), Col. A. D. Davidson, H. S. Fleming, T. G. Holt, Sir D. D. Mann, E. J. Palmer, F. Perry, Sir E. Walker, C.V.O., and E. R. Wood. *London Secretary:* H. W. Harding. *London Office:* Bond Court House, Walbrook, E.C. *Head Office:* Vancouver.—The company was incorporated under the laws of the Dominion of Canada in April, 1910, to acquire the properties in British Columbia and in California of the Hon. James Dunsmuir in anywise relating to coal, coal mines and fire clay. These properties include the whole of the share capital of the Wellington Colliery Company, Limited, operating collieries on Vancouver Island; the entire share capital of Messrs. Robert Dunsmuir Sons Co. of San Francisco, and the mortgage existing on the property of the latter company. The company also owns about 2,000 acres of timber land on Vancouver Island, on which iron ore has been located, and about 5,000 acres of land on Denman Island.

The authorised capital is $15,000,000 in shares of $100, $5,000,000 being in 7 per cent. cumulative preference, and $10,000,000 in common shares; all the preference shares were subscribed for and have been paid up, and all the common shares were issued credited as fully paid. In May, 1910, an issue of £2,054,800 of 5 per cent. (see below) first mortgage gold bonds of £20, £100 and £500 each was made through the Union of London and Smiths Bank, Limited, 2, Prince's Street, E.C., and the Canadian Bank of Commerce, 3, Lombard Street, E.C., at 95 per cent. The bonds, which are limited to the amount issued, are secured by a specific first mortgage and trust deed on all the coal, timber, railways and other fixed properties, have interest payable March 1 and September 1 (see below), and are to be repaid September 1, 1950, at par, with the option to the company of repayment before that date, on six months' notice, at 105 per cent. and accrued interest, while an annual sinking fund of 10 cents per ton on all coal sold, with a minimum of £40,000 per annum, commencing in 1913 (see below), was to be utilised to redeem bonds at 105 per cent. by means of annual drawings (in September or October), or by purchase in the market below that price; moreover, the company reserved the right to accelerate the sinking fund. All payments on the bonds are made in London—by the issuing banks—Toronto (at the fixed exchange of $4.86⅔ to the £), Amsterdam, Antwerp and Geneva. The bonds are to bearer, but may be registered as to principal only at the office of the Canadian Bank of Commerce, as above, and registered bonds may be exchanged back into bonds to bearer, the fee for

either operation being 2s. 6d. per bond. There were also, at June 30, 1914, special loans for $873,511, of which $200,000 is secured by the deposit of second mortgage debenture stock.

In August, 1914, the directors announced that, owing to the difficulties caused by the financial crisis, the coupons falling due on the bonds on September 1, 1914, would not be paid. In March, 1915, the bondholders agreed—that the interest due on the bonds from March 1, 1914, up to and including March, 1918, or until one year after the termination of the war, whichever period may be the longer, shall only be payable if and to the extent that the profits of the company remaining after providing for all working and administration expenses, depreciation and necessary maintenance and renewal of equipment, and interest on the floating debt of the company, are sufficient to pay the same, any arrears of such interest to be paid out of the net profits of any subsequent year before any payment is made in respect of interest or otherwise on the second debenture stock; to raise the interest for the period named from 5 to 6 per cent.; and to postpone the commencement of the sinking fund from March 31, 1914, to March 31, 1919, such sinking fund payments to be cumulative and arrears to be made a charge on the profits before making payment in respect of interest or otherwise on the second debenture stock.

The accounts are made up annually to June 30, and submitted in April. For the period from June 17, 1910, to June 30, 1911, there was a net profit, after providing for fixed charges, including bond interest, of $128,358, out of which the preference dividend was paid, and $62,960 was carried forward; for 1911-12, including the balance brought down, there was a credit balance of $765,283, out of which bond and loan interest was paid, and $70,000 was set aside for the preference dividend for the year, leaving $103,647 to be carried over; in 1912-13, after providing for bond interest, but making no provision for sinking fund or for depreciation, the credit balance brought forward was converted into a debit of $343,143, which in 1913-14 was increased to $759,384—strike conditions prevailed during the greater part of 1912-13, but terminated late in 1914. Bond interest was regularly met to March 1, 1914, inclusive, but the interest due September 1, 1914, and since has not been met, and, as stated above, the bondholders agreed, in March, 1915, that bond interest shall until March, 1918, or the termination of the war, be payable only out of profits. The bonds are quoted in the official list.

The authorised capital is $5,000,000 in shares of $100, $2,000,000 being in 7 per cent. cumulative preferred shares, and $3,000,000 in common shares, and $1,400,000 of preferred and all the common shares have been issued and fully paid up, the entire share capital being held by the Canadian Car and Foundry Company, Limited. In March, 1911, Parr's Bank, Limited, was authorised by the Western Canada Trust, Limited, to receive applications for the purchase, at the price of 102 per cent., of £410,900 of 6 per cent. first mortgage and collateral trust bonds of £100 and £200 each, of which, however, £100,000 had been applied for in Canada. The bonds form part of a total authorised of $5,000,000, the present amount, however, being limited to $3,650,000, of which (including the above-mentioned bonds offered here) there has been placed $2,900,922, and $749,077 has been deposited for the redemption of $750,000 of bonds secured over the Montreal Steel Works; the balance of $1,350,000 can only be issued to the extent of 75 per cent. of future capital expenditure, and only when net earnings for the fiscal year next preceding are at least three times the amount of interest required for bonds outstanding and on those then proposed to be issued. Interest is payable March 1 and September 1, and the bonds are to be repaid March 1, 1936, but the company has reserved the option to redeem the whole of the issue outstanding at 110 per cent. and accrued interest on March 1, 1921, or on any interest date thereafter, and in the event of voluntary liquidation the bonds are also to be redeemed at 110 per cent. and accrued interest. As from March 1, 1913, a sinking fund of 2½ per cent., plus interest on all bonds purchased or redeemed through the sinking fund, is to be paid to the trustee, such fund to be used to purchase and retire the bonds at not exceeding 110 per cent. and accrued interest, or to call bonds at that price if not so purchasable, and so far bonds for $260,464 have been redeemed, reducing the amount outstanding to $2,389,536. The bonds are unconditionally guaranteed both as to principal and interest (by endorsement on the bonds) by the Canadian Car and Foundry Company, Limited, and are secured by a first mortgage on all the assets of the Ontario Iron and Steel Company, Limited, and on over 95 per cent. of the shares in the Montreal Steel Works, Limited, while provision has been made for acquiring the remainder of the shares and for the retirement of the outstanding bonds of the Montreal Steel Works, Limited, in order that the present issue of bonds of the Canadian Steel Foundries, Limited, may become a first mortgage on the properties of the Montreal Steel Works, Limited. The sterling bonds are exchangeable at the office of the trustee (the Montreal Trust Company, of Montreal) into currency denominations of $1,000 and $500 at the fixed exchange of $4.86⅔. The bonds are to bearer, but may be registered as to principal at the office of the Montreal Trust Company, in Montreal. The accounts are made up annually to September 30. Matthews, Col. Sir H. M. Pellatt, F. L. Wanklyn, E. R. Wood and M. Workman. *Office:* Sydney, Cape Breton, Canada.—The company was established under Canadian laws, and in 1905 carried through a reorganisation of its capital, 6 per cent. first mortgage bonds being redeemed by an issue of 5 per cent. bonds, and the old 8 per cent. preferred shares by the issue of 7 per cent. preferred shares. The capital now consists of—$6,559,000 first mortgage 5 per cent. sinking fund gold coupon bonds, of $500 and $1,000 each (balance outstanding of $7,000,000, the total authorised), with interest payable May 1 and November 1, and the principal repayable May 1, 1940, but a sinking fund is to be provided after five years sufficient to redeem all the bonds at maturity, and drawings take place annually (in the month of May, commenced in 1911), for redemption at 105 per cent. and accrued interest, while the company has reserved the right of redemption (on thirty days' notice) on any interest date, also at 105 per cent. and accrued interest; $3,500,000 6 per cent. income bonds (all held by the Dominion Steel Corporation); $3,000,000 7 per cent. cumulative preferred shares of $100 each (being the total authorised), holders of which had certain conversion rights (now expired), while the company has reserved the right of redemption at 25 per cent. premium and accrued dividends, at any time, and in the event of liquidation the preferred shares will be entitled to receive par and 15 per cent. premium, plus accrued dividends, in preference to the common shares; and $15,000,000 common shares of $100 (all held by the Dominion Steel Corporation).

The accounts are now made up annually to March 31. As the whole of the common share capital is now held by the Dominion Steel Corporation, Limited, separate accounts for the Dominion Coal Company are not published, but the accounts of the Dominion Steel Corporation, including its constituent companies, for the year ended March 31, 1915, showed that the preferred dividend of the Dominion Coal Company was duly paid, and further that the Dominion Steel Corporation had paid the dividend on its own preferred shares, but there was no distribution in respect of 1914-15 on its own common share capital issued against the common shares of the constituent companies. The preferred dividend is paid in February and August (paid to date). Latest price of preferred, 98 per cent.

The issue is secured by a mortgage on the properties, subject to the above-mentioned first mortgage bonds, for the retirement of which a sufficient amount of consolidated mortgage bonds is reserved, while the proceeds of the issue were to be applied to the retirement of pre-existing second mortgage bonds, and the provision of funds for the extension of the company's works; no further consolidated mortgage bonds can be sold by the company except for the purpose of acquiring additional property. Coupons are payable March 1 and September 1, and the principal is repayable September 1, 1939. As practically the whole of the common share capital is now held by the Dominion Steel Corporation, Limited, separate accounts for the Dominion Iron and Steel Company are not published. Mason, F. Nicholls, Col. Sir H. M. Pellatt, C.V.O., W. G. Ross, E. R. Wood and M. Workman. *Secretary:* C. S. Cameron. *Office:* Sydney, Cape Breton, Canada.—The Dominion Steel and Iron Corporation, Limited, was incorporated in 1910 under the laws of the Province of Nova Scotia, Canada, to issue its own shares against the shares of the Dominion Iron and Steel Company, Limited, and the Dominion Coal Company, Limited, and in 1911 the name was changed as above. In 1911 the entire share capital of the Cumberland Railway and Coal Company was acquired by an exchange of shares, and through its share holdings the Dominion Steel Corporation controls these three companies. The total amount of capital issued by the Dominion Steel Corporation, Limited, is $7,000,000 in 6 per cent. cumulative preference shares (with a priority as to capital) and $37,097,700 in common shares, both of $100, fully paid, the whole having been allotted in exchange for—$20,798,000 of Dominion Iron and Steel common shares, and $3,500,000 of 6 per cent. income bonds; $15,000,000 of Dominion Coal common shares and $3,500,000 of 6 per cent. income bonds; $1,999,000 of Cumberland Railway and Coal shares; and $1,249,000 for other purposes. The corporation has undertaken not to increase the present issues of preference shares without the consent of Messrs. Speyer Brothers, the Dominion Securities Corporation, Limited (of Canada), and the Banque de Paris et des Pays Bas, unless the average yearly net earnings of the corporation have for three years preceding such proposed increase exceeded four times the amount of the yearly dividend on the preference shares then outstanding and the further shares proposed to be issued. The corporation has the right to redeem the preference shares at any time on three months' notice at 110 per cent., plus all arrears of dividend. The preference shares were offered for sale in April, 1912, by Messrs. Speyer Brothers, 7, Lothbury, E.C., at $92\frac{1}{2}$ per cent., the lists being simultaneously opened in Amsterdam and Brussels, and the $7,000,000 of income bonds of the Dominion Coal Company, Limited, and the Dominion Iron and Steel Company, Limited, are held in the treasury of the Dominion Steel Corporation "as the primary source from which a revenue to provide for the dividends on the preference shares will be derived." There were formerly 5 per cent. five-year debentures for $1,500,000, but these were all repaid November 1, 1915. In November, 1913, there were issued at 97 per cent. £700,000 five-year 6 per cent. secured notes, due December 1, 1918, of £200 and £100 each, with interest payable June 1 and December 1, and the principal repayable in whole or in part, on any interest date, upon sixty days' notice, by drawings at par, while they are secured by a specific charge upon £734,000 5 per cent. consolidated mortgage bonds of the Dominion Iron and Steel Company, Limited, and £200,000 5 per cent. first mortgage bonds of the Cumberland Railway and Coal Company; the authorised amount of the notes is £1,000,000, and the balance, amounting to £300,000, may be issued against the deposit of £220,600 of the above 5 per cent. consolidated mortgage bonds of the Dominion Iron and Steel Company and £179,400 of the above 5 per cent. first mortgage bonds of the Cumberland Railway and Coal Company, but not until an existing issue of $1,500,000 of debentures has been redeemed. The notes are to bearer, but may be registered as to principal only. There are also 6 per cent. employees' debentures for $58,669.

The accounts are made up annually to March 31, and submitted in June. From July, 1911, to January, 1914, both inclusive, quarterly dividends at the rate of 4 per cent. per annum were paid (in January, April, July and October) on the common shares, payments being made by the Bank of Montreal, in Montreal, or London (47, Threadneedle Street, E.C.) at the fixed exchange of

$4.86⅔ to the £; there has been no distribution on the common shares since January, 1914. Dividends on the preference shares are paid February 1, May 1, August 1 and November 1, in Montreal, or, at the holder's option, in London, at the Canadian Bank of Commerce, 2, Lombard Street, E.C., at the fixed exchange of $4.86⅔ to the £; the preference dividend has been paid down to November, 1915. After payment of dividends on the preference shares of the Dominion Steel Corporation, as well as meeting bond interest of the constituent companies and the preferred dividend of the Dominion Coal Company, there was a surplus of the Dominion Steel and associated concerns for the year 1914-15 of $225,256, the credit to profit and loss then standing at $1,022,163, exclusive of $1,555,554 "surplus of the several constituent companies at dates of acquisition in excess of premiums paid on purchase of stock thereof." The preference and common shares are quoted in the official list. Latest prices—preference, 75½; common, 52½; notes, 92.

Dunderland Iron Ore Company, Limited.—*Directors:* A. O. Cantley, S. C. Magennis and W. Rhodes. *Secretary:* G. T. Hannaford. *Office:* 4-6, Copthall Avenue, E.C.—The company was registered April 22, 1902, to acquire properties covering an area of several square miles in and near Dunderland, Norway, and an exclusive licence, free from royalty, to use Mr. Edison's patented processes for the extraction of iron ore in Norway and Sweden. In 1908 interest charges fell into arrear, and from then onwards for some years negotiations were carried on with a view to reconstruction, but these

did not materialise until 1913, when the New Dunderland Company, Limited, was formed, particulars of which will be found elsewhere. Under the reorganisation plan involving the formation of the New Dunderland Company the whole of the ordinary stock of £450,000 of the Dunderland Iron Ore Company, Limited, has passed into the possession of the New Dunderland Company, while first and second charge debenture stocks and funded interest certificates of the Dunderland Iron Ore Company have been cancelled, and the position of the prior lien bonds of the Dunderland Iron Ore Company was materially altered. These prior lien bonds amount to £250,000; they are in future to receive no interest, but the principal is to continue a first charge on the property and undertaking, and there is to be applied in paying off the principal of the prior lien bonds, pari passu and rateably, 25 per cent. of the net profits of the New Dunderland Company until one-half of the principal of such prior lien bonds has been repaid, and thereafter 5 per cent. of the net profits. To September 30, 1914, advances had been obtained from the New Dunderland Company, Limited, amounting, with interest, to £25,600. The accounts are made up annually to September 30, and submitted in December. No payment has yet been made on the prior lien bonds under the scheme referred to above.

The authorised capital is £500,000, £10,000 being in vendors' shares of 1s. each,

and £490,000 in ordinary shares of 5s. each, and all the vendors' shares and £475,678 of the ordinary have been subscribed and called up. There are also 10 per cent. first mortgage debentures in multiples of £10 for £75,220 (part of £200,000 authorised), of which £61,000 was issued in September, 1913, at par, while £77,700 has been deposited as security for loans; interest is payable March 1 and September 1, and the principal is to be redeemed within ten years from January 1, 1915, by equal annual drawings at a premium of 5 per cent. The £50,000 of unissued debentures will not be available for issue until the auditors certify that the working results of the colliery are upon such a basis as will provide net profits equivalent to at least 10 per cent. per annum upon the ordinary capital, after all interest and other outgoings.

In 1915 the debenture holders and unsecured creditors agreed to a scheme of arrangement, which has received the sanction of the Court. Kent Coal Concessions, Limited.—*Directors:* J. Dewrance (Chairman), Lt.-Col. J. P. Dalison, Earl of Darnley, S. D. Greig and W. P. Studholme. *Secretary:* L. M. Hurrell. *Office:* Castle Hill House, Dover.—The company was registered April 19, 1904, to take over the properties of the Dover Coalfield Extension, Limited. The authorised capital is £275,000 in shares of £1, £33,725 being in preference shares, £239,775 in ordinary shares, and £1,500 in deferred shares. The preference shares rank first for cumulative dividends of 10 per cent. per annum (having also a priority as to capital), the ordinary then rank for dividends of 12 per cent. (non-cumulative), and surplus profits, after making provision for a reserve fund, are to be appropriated—67 per cent. to the ordinary shares and 33 per cent. to the deferred shares. All the deferred shares were allotted credited as fully paid, and £211,585 of the ordinary and all the preference shares have been issued and called up. In May, 1911, an issue of 6 per cent. first mortgage convertible debentures of £10 each for £150,000 was made at par; interest is payable May 1 and November 1, and the debentures were to be redeemed in cash within three years, at such date or dates as should be fixed by the board, at the rate of £12 per debenture, or, at the option of the holder, redeemed on the date or dates so fixed by conversion into shares of the Kent Coal Concessions and allied companies on certain specified terms. In October, 1914, the debenture holders agreed to the postponement during the continuance of the war and for a period of six months thereafter of the right to demand or enforce payment of the principal moneys and premium secured by the debentures, and all interest due and to become due thereon.

In October, 1913, the shareholders sanctioned the formation of a new company to purchase leases of the minerals of this company, the South-Eastern Coalfield Extension, Limited, the Extended Extension, Limited, and the Deal and Walmer Coalfield, Limited, but nothing further has been done in the matter. Having obtained the sanction of the court to an arrangement and compromise made in 1914 with certain creditors, these four companies, early in 1915, made an issue of 6 per cent. joint bonds for £90,000, with interest payable January 1 and July 1, and the principal repayable at 125 per cent. six months after the cessation of the war. The liability of the four companies in respect of the bonds is—as to Kent Coal Concessions, 50 per cent. of the amount; as to South-Eastern Coalfield Extension, 23 per cent.; as to Extended Extension, 18 per cent.; and as to Deal and Walmer Coalfield, 9 per cent.

The last accounts were for the two years to March 31, 1913, and were submitted in July, 1913. In July, 1907, a distribution of warrants was made to holders of ordinary and deferred shares entitling them to fully-paid 5s. shares of the East Kent Colliery Company, Limited, at the rate of 7 for every 10 ordinary shares held and 17½ for every deferred share held—no distribution since on the ordinary or deferred shares. The preference dividend is payable January 1 and July 1, but no payment has been made since January 1, 1914, and the payment of debenture interest has been postponed, as stated above. Colliery sections have been disposed of to other parties, and also to subsidiary companies in which the Kent Coal Concessions is interested. Credit to suspense account at March 31, 1913, £190,545. Cash balance at March 31, 1913, nil; sundry debtors, £619; due from allied companies, £133,189; shares in allied companies, £38,252; sundry creditors, £54,343. In the reconstruction the share capital was written down by three-fifths; in 1899 the rights of the A and B debenture holders were modified, as mentioned below, the new arrangement dating from January 1, 1899; and in 1902, in order to extinguish an old debit to profit and loss, 10s. per share was written off. The capital issues as at December 31, 1913, were as under:—

£135,243 Shares of £4 10s. (part of £135,333 authorised), with £123,972 15s., or £4 2s. 6d. per share, paid up.

£155,250 Seven-and-a-half per cent. B debentures. Under the arrangement of 1899 interest is non-cumulative and payable only out of profits, but in compensation for relinquished rights

the debentures now rank for one-half of two-thirds of the net profits after providing for a redemption fund, but it is provided that should the amount of the B debentures be reduced below £160,000, such a part only of the said two-thirds of the profits in any year shall be distributed by way of bonus as bears the same proportion to a moiety of such two-thirds that the capital amount secured by the said outstanding B debentures bears to £60,000.

The accounts are made up annually to December 31, and submitted in May. New Dunderland Company, Limited.—*Directors:* A. O. Cantley, S. C. Magennis and W. Rhodes. *Secretary:* G. T. The plant of the parent company, however, did not work in a satisfactory manner,

and default took place in interest payments in 1908. For several years subsequently negotiations were carried on, but these did not materialise until 1913, when the New Dunderland Company, Limited, was formed and has provided capital for the installation of an Ullrich wet separation plant capable of treating in the first instance 150,000 tons of crude ore per annum. The New Dunderland Company, Limited, has an authorised share capital of £350,000 in shares of £1, of which £125,523 has been subscribed, and £75,313 16s., or 12s. per share, called up (calls in arrear at September 30, 1914, £32,104), holders of securities in the old company having received rights of subscription to these shares, while option certificates have been issued entitling the holders to subscribe at par for the unissued shares during three years from the date of registration of the company. The old company had prior lien bonds for £250,000, the status of which has been changed, and they now rank for principal sum only, which is to be liquidated by the application of 25 per cent. of the net profits of the undertaking until one-half of the principal sum of the prior lien bonds has been repaid, when the appropriation from net profits is to be reduced to 5 per cent. until the balance of the £125,000 is paid off. First and second debenture stocks of the old company have been cancelled, the holders having received one profit-sharing certificate of the new company in respect of each £1 of debenture stock held; holders of funded interest certificates issued for arrears of interest received one profit-sharing certificate in respect of each £2 of such funded interest certificates, and holders of ordinary stock one profit-sharing certificate for each £5 of ordinary stock. These profit-sharing certificates number 685,314, and they are to receive 6⅞ per cent. of the net profits of the undertaking until £125,000 has been applied out of net profits in repayment of the principal of the prior lien bonds, and thereafter the certificates are to receive 5 per cent. of the net profits, while in a winding up of the company the certificates are to receive 5 per cent. of the surplus assets remaining after payment of debts and liabilities to creditors. Rhymney Iron Company, Limited.—*Directors:* J. Varley (Chairman), Sir E. Clarke, Hon. T. G. E. Lewis, A. H. Ramsden-Tagore, D. A. Thomas and Col. H. E. Tyler. *Secretary and Commercial Manager:* F. B. Saunders. *Office:* 26, Martin's Lane, E.C.—The company was established in 1836, and was registered March 24, 1871, as limited. Up to the end of the company's financial year on March 28, 1914, the capital consisted of £1,000,000 in shares of £5, all of which had been called up, although as regards 73,062 shares issued in 1881 at 50 per cent. discount the courts decided against the legality of the issue of shares at a discount, and the company obtained in 1900 an act of parliament making the 50 per cent. on these 73,062 callable only in the event of liquidation, while any amounts then called up in respect of the discount were to form a charge on the assets of the company after payment of the creditors in priority to other sums paid on the shares. In 1914 it was decided to reorganise the capital, and in the first place to subdivide each share of £5 into five shares of £1, while of the capital as thus subdivided two-fifths became preference and three-fifths ordinary, but as regards the 73,062 shares referred to above, that were issued at a discount, the liability in the event of liquidation attaches only to the new ordinary shares. The authorised capital is now £1,000,000 in shares of £1, £400,000 being 6 per cent. cumulative preference shares, and £600,000 ordinary, and the whole of the capital has been subscribed, and is fully paid, except that 219,186 of such ordinary shares (numbered 380,815 to 600,000 inclusive), resulting from the subdivision of the before-mentioned 73,062 discount shares, have a liability of 16s. 8d. each in the event of liquidation. After payment of the preference dividend a sum equal to 10 per cent. of the surplus is to be carried to a preference dividend equalisation account applicable to make up the deficiency of the available profits in any year to meet the preference dividend until such fund shall amount to £60,000. There are also—5 per cent. debentures of £500, £100 and £20 each to the amount of £286,000 (outstanding balance of £350,000, issued in 1887 and since), with interest payable June 30 and December 31, and the principal repayable within 99 years at par, at the rate of £4,000 per annum, by annual drawings in June for repayment in the following December, commenced in June, 1899; £174,140 (outstanding balance of £200,000 issued and authorised) 5 per cent. first mortgage New Pits debenture stock, issued in January, 1906, and since, at par, secured by a first mortgage on certain mineral rights, with interest payable May 1 and November 1, the sum of £5,000 per annum being set aside, as from March 31, 1911, for the redemption of the debenture stock, while the whole or any portion of the stock may be repaid by the company at 105 per cent., after the expiration of ten years, on six months' notice, and the stock will also be redeemable at 105 per cent. in the event of the voluntary liquidation of the company for reconstruction or amalgamation.

The accounts are made up annually to the last Saturday in March, and usually submitted in June; an interim report being issued in December. For the year 1902-3 3½ per cent. was paid; for 1903-4, 1904-5 and 1905-6, 2 each time; for 1906-7 and 1907-8, 3; for 1908-9, nil; for 1909-10, 1 per cent.; for 1910-11, 2½ (free of income tax); for 1911-12, nil, "due to the frequent stoppages of the collieries from labour difficulties"; for 1912-13, 4 per cent.; and for 1913-14, 5, less income tax, on the capital before reconstruction. For 1914-15 only the preference dividend was paid. General reserve fund, £28,676; preference dividend equalisation account (invested outside the business), £649; workmen's compensation reserve fund, £5,000; carried forward, £5,847. On account of 1915-16 3 per cent. was paid on the preference shares on December 10. Voting power, one vote for every share of either class. In the event of liquidation the preference shares will have a priority as to capital, and after repayment of the entire capital the two classes will rank equally up to an additional 5 per cent. on the preference, and thereafter all remaining assets are to belong to the ordinary shareholders. The dividend on the ordinary shares is restricted to 10 per cent. per annum payable out of the profits of any one year, until a special reserve fund of £50,000 has been accumulated to secure the dividend on the preference shares, which special reserve must be invested outside the company's business. There is also £273,340 5 per

cent. redeemable first mortgage debenture stock, outstanding balance of £300,000 offered for subscription in July, 1912, by the London City and Midland Bank, Limited, the British Linen Bank, and the Clydesdale Bank, Limited, at the price of 95 per cent., the same banks having simultaneously received subscriptions for £150,000 of the preference shares at par. Haselden. *Office:* Caxton House, Tothill Street, Westminster, S.W.—The company was established in 1863, and in 1880 was reconstructed, The capital consists of £136,000 in fully-paid A shares of £17 (£66,895 being deferred A), £24,000 in fully-paid B shares of £3, and £16,872 in new B shares of £3, with £8,436, or £1 10s. per share, paid. The two classes of B shares rank for 10 per cent. cumulative preference dividends, after payment of which all the shares rank equally on surplus profits; the B shares have also a priority as to capital.

The accounts are made up annually to the end of December, and submitted in January or February. As from July 1, 1891, the Lancaster Steam Coal Collieries, Limited, took over the properties on lease for 24½ years, at a fixed rental of £10,000 per annum, further engaging to pay to trustees yearly

a sum of £3,000 towards the purchase of the properties, which is calculated, with compound interest, to be sufficient to provide, at the expiration of the lease, a sum of £123,248. As this sum is not equal to the paid-up capital as above, the deficiency will fall on the A shareholders. The Lancaster Steam Coal Collieries, Limited, in lieu of the above-mentioned £3,000 per annum, handed over in 1911 to the company, in accordance with the terms of the purchase agreement, 231 A shares, which, taken at the agreed price of £13 per share, represented a total of £3,003; in 1912 229 A shares were similarly handed over, these, at £13 per share, representing a sum of £2,977, and these shares so handed over were cancelled, and deferred A shares of equal nominal value were issued in lieu thereof; in 1913 the sum of £3,000 on account of guarantee fund was paid in cash; and in 1914 120 A shares were handed over and cancelled (a corresponding number of deferred A shares being issued in exchange, making the capital statement as above), which at the agreed price of £13 per share represented a sum of £1,560, the balance of £1,440 being provided in cash. The deferred A shares take the same dividend as the A, but they are not to participate in the division of surplus assets until the B and new B shares are paid in full, and £13 per share has been paid to the holders of A shares. For each of the fifteen years to 1914 the B capital got 14 per cent. and the A 4 per cent. Reserve, £2,505; investment reserve fund, £4,260; carried forward, £1,181. On account of 1915 7 per cent. was paid on the B and new B shares, and 2 per cent. on the A and deferred A shares, in August. Voting power, one vote for every 4 shares of any class. Director's qualification, 50 B or new B shares. Transfer form, common; fee, 2s. 6d. per deed. Telegraphic address, Dichroism, London. Telephone number, 6156 Victoria. United Collieries, Limited.—*Directors:* M. F. Maclean (Chairman), D. Strathie and J. Wood. *Secretary:* D. W. Fyfe. *Office:* 109, Hope Street, Glasgow.—The company was registered March 10, 1898. In 1904 some modification took place of the relations between the company and the holders of the (first) debentures, while in 1911 a further reorganisation was effected of the debenture debt, three years' arrears of interest on the (first) debentures being cancelled, while the issue was divided into two classes, A and B, and the repayment of the principal was postponed to 1936; seven years of arrear interest on the second debenture stock was cancelled, and the repayment of the principal postponed to 1936. There were formerly 5 per cent. prior lien debentures, but these were redeemed in June, 1915. The capital is now as under :—

£1,000,000 Ordinary shares of £1, fully paid, being the total authorised.

£800,572 Six per cent. cumulative preference shares of £1, fully paid, having a priority also as to capital. The total authorised is £1,000,000. The dividend on these shares is in arrear as from June, 1903.

£855,450 Five per cent. first debentures of £50 each (outstanding balance of £1,000,000). These were formerly all of one class, but in the rearrangement of 1911 there were issued two £50 debentures for each old £100 debenture—one A and one B—while at the same time three years' arrears of interest on the old debentures were cancelled, there being, therefore, £407,200 of A debentures and £448,250 of B. On April 1, July 1 and October 1, 1912, six months' interest was paid each time on the A debentures (thus clearing off arrears), while interest due on April 1 and October 1, 1913, and April 1, 1914, was regularly met, and that due on October 1, 1914, was paid on November 30, 1914; interest due on April 1 and October 1, 1915, was duly paid. On October 1, 1912, one year's interest was paid on the B debentures, and on December 2, 1912, one half-year's interest (to October 1, 1912), while interest due on April 1 and October 1, 1913, and April 1, 1914, was regularly met, but that due on October 1, 1914, was paid on February 15, 1915, and interest due on April 1, 1915, was duly paid. Interest on the A debentures is to be paid preferably to interest on the B debentures, but until March 31, 1917, it is only to be paid out of profits, while all arrears are then to become unconditionally payable; interest accruing after March 31, 1917, on the A debentures is to be unconditionally payable half-yearly on April 1 and October 1, interest on the B debentures is only to be paid after interest on the A debentures has been met, and any arrears on the B debentures are to become unconditionally payable on March 31, 1936, on which date all the debentures, both A and B, are to be repaid at a premium of 15 per cent. The A debentures, with any unpaid accumulated interest thereon, rank in priority to the B. Under the old arrangement there was owing on September 30, 1914, to the first debenture sinking fund a sum of £543,555 (reduced by December 31, 1914, to £538,040), and the new scheme did not alter the company's cumulative liability for provision of this fund, which is only payable out of profits after providing for A and B interest. It is, however, provided that, before payment of any future half-yearly interest on the A debentures, there is to be set aside out of the company's earnings a sum of £500 towards a sinking fund, and before payment of any half-yearly interest on the B debentures there is to be set aside for the same purpose the further sum of £2,000, the sums to be so set aside, which shall include accumulated interest thereon equivalent to coupons paid, to be used in redeeming debentures by tender at any price up to 15 per cent. premium, or, failing any tender, by drawings at the same rate, in the proportions of four-fifths for the A debentures, and one-fifth for the B debentures, any sums provided by the company towards the original sinking fund to be dealt with in like manner for the redemption of the A and B debentures. In 1912 £17,300 of the A debentures and £5,900 of the B debentures, in 1913 £25,300 of the A debentures and £9,500 of the B, none in 1914, and in 1915 £21,650 of the A debentures and £7,800 of the B were redeemed by tender, reducing the amounts outstanding to those given above.

£348,241 Six per cent. second debenture stock (part of £350,000 authorised), ranking for cumulative interest, but payable only out of profits after meeting charges for the A and B debentures, while the principal is repayable, together with any arrears of interest, on March 31, 1936. No interest is being paid.

£116,277 Income debenture stock, part of a total authorised of £200,000, ranking for 6 per cent. cumulative interest, payable only out of net profits, after meeting the charge for the second debenture stock, while the holders are entitled, after interest on the income debenture stock has been met, to nine-tenths of the surplus net profits, and the company may, at any time after June 30, 1930, on six months' notice, redeem the whole of the stock within three months after the end of the financial year then current, at par, and share of surplus net income, the stock otherwise being irredeemable. No interest is being paid.

The accounts are made up annually to December 31, and submitted in March. For several years down to 1910 interest charges were only met in part, and in 1911 the debenture debt was reorganised as stated above. On April 1, July 1 and October 1, 1912, six months' interest was paid each time on the A debentures, thus clearing off arrears, while interest due on April 1 and October 1, 1913, and April 1, 1914, was regularly met, and that due on October 1, 1914, was paid on November 30, 1914, while interest due on April 1 and October 1, 1915, was duly paid. On October 1, 1912, one year's interest was paid on the B debentures, and on December 2, 1912, one half-year's interest (to October 1, 1912), while interest due on April 1 and October 1, 1913, and April 1, 1914, was regularly met, but that due on October 1, 1914, was paid on February 15, 1915, while interest due on April 1, 1915, was duly paid. For 1909 there was a profit on working of £10,119; for 1910 of £31,351; for 1911 of £17,450; for 1912 of £120,582; for 1913, £100,503; and for 1914, £57,600. At December 31, 1914, there was a credit balance in the debenture interest and redemption appropriation account of £36,796. Debit balance at December 31, 1914, £68,964, exclusive of £170,576 postponed interest on the debentures and debenture stocks, not charged to profit and loss account. Voting power, one vote for every share, ordinary or

The amount of bonds then issued was $170,000,000, and by means of this issue the amount of the preference shares outstanding was reduced to that given above, while $30,000,000 was placed in November, 1907, in exchange for the shares of a company taken over, making up the total of $200,000,000.
